

Pupil Premium

The Pupil Premium is grant funding and is in addition to the School's Delegated Budget. It is allocated to children from low-income families and children who have been looked after in care continuously for more than six months or have been adopted. Pupil Premium Funding is used to raise attainment, promote social skills, independent learning and positive behaviour in order to increase pupil progress and well-being. At Eastry Primary School we have chosen to allocate funding, resources and intervention in-line with the school year.

The Government believes that the Pupil Premium, which is additional to main school funding, is the best way to address the current underlying inequalities between children eligible for free school meals (FSM), children in care and adopted children and their peers by ensuring that funding reaches the pupils who need it most. Children from Service families are also eligible for additional funding to support their well-being.

In most cases the Pupil Premium is allocated to schools and is clearly identifiable. It is for the school to decide how the Pupil Premium is spent. However, schools will be held accountable for how they have used the additional to support eligible pupils and families.

Eastry Church of England Primary School has a varied intake of children with many different needs. These needs range from SEN (special education needs), health issues, EAL,(English as an Additional Language) LAC (Looked After Children) and FSM (Free School Meals). Of the total of our children on school role 21% of our children (46) are eligible to receive Pupil Premium Funding.

The school makes every effort to encourage parents who are eligible for FSM to do so.

The school is clear in its aims and vision that all pupils should be given the opportunity to achieve to their full potential, to the best of their ability.

Eastry has tracking systems to ensure the progress of all pupils is followed closely, both as an individual and as part of different groups. Pupil Premium pupils are tracked as a vulnerable group. Pupils in this group who require additional support are identified through regular pupil progress meetings with teachers, headteacher and the SENCo, through communication with parents and through links outside agencies.

'It is for schools to decide how the Pupil Premium, allocated to schools per FSM pupil, is spent, since they are best placed to assess what additional provision should be made for the individual pupils within their responsibility'

Impact of specific intervention programmes

Reading Recovery: overall average 16 book levels progress in 16 weeks

Numbers Count : overall average 56 weeks (14 months) progress in 10 weeks

Numbers Count Lite: overall average 12 weeks (3 months) progress in 6 weeks

Sound Training programme : overall average increase of reading ages 64 weeks (16 months) in 10 weeks

Better Reading Partnerships: overall average 6 book levels progress in 10 weeks

Achievement: The additional education and emotional support provided (through focused adult support and additional resources) during this year ensured that throughout the school children entitled to Pupil Premium have made good progress. This in turn is helping to close the achievement gap between groups of children. Enrichment activities were provided to enable pupils to further develop confidence and self-esteem.

Parental Engagement: Through our parental social interaction groups there has been an increased level of parental engagement. This in turn has had a positive impact on children's learning. Our Family Liaison Officer's support has enabled a clear line of communication between home and school.

Residential/Social and Cultural Visits: Pupil Premium targeted support ensured that all Year 6 pupils eligible for this funding were given the opportunity to take part in the Year 6 residential. Year 3 and Year 4 pupils had the opportunity to visit a French Primary School in Lille.

Barriers to future attainment and progress

12 of the 46 pupil premium children also have additional special educational needs which impacts on their ability to attain at the expected standard and /or make expected progress

3 of the 46 pupil premium children have difficulties in managing their behaviour which impacts of their ability to learn and make progress

7 of the 46 pupil premium children have experienced mobility in their education which has disrupted their learning

7 of the 46 pupil premium children had attendance below 90% which impacts of their ability to learn and make progress.

1 of the 46 pupil premium children acts as a young carer which means it is harder for the family to support their child's learning.

3 of the 46 pupil premium children have family members with additional emotional and health needs which means it is harder for the family to support their child's learning.

Monitoring and evaluation

The provision for each child in receipt of pupil premium funding is discussed during pupil progress meetings with the Headteacher, SENCO and class teacher. Provision is adapted accordingly in light of these meetings and budget allocations to particular strategies may be revised. Governors monitor the impact of pupil premium funding and interventions during the Data Monitoring group meetings.

The next full review of the Pupil Premium Strategy will take place in **September 2017**.

Pupil Premium Expenditure and Planned Intervention 2016-2017

In the academic year 2016-17, the Pupil Premium allocation to Eastry Primary School is £59080 and is worth either £1,900 for children that are looked after or postcare, £1,320 for children that are entitled to free school meals or £300 for children whose parents are service personnel.

We have identified areas for development this year to ensure that we continue to close the attainment gap of children who are entitled to pupil premium. We will be using the funding to support the following planned interventions:

- Booster classes (Yrs 2 to 6) run by a teacher
- Reading Recovery intervention (KS1) run by a teacher
- Numbers Count intervention (KS1) run by a teacher
- Numbers Count Lite (KS1 and KS 2) run by teaching assistants
- Better Reading Partnerships (KS1 and KS2) run by teaching assistants
- Additional reading activities (KS1 and KS2) run by teaching assistants
- Speech and language programmes in (FS and KS1) run by teaching assistants
- Beanstalk Reading programme (1 to 1) run by trained volunteers
- Co-ordination programmes (small group) run by teaching assistants
- Extra-curricular activities
- Enrichment activities
- Family Liaison Officer support
- Adult education courses
- Counselling run by trained counsellors
